EDUCATION

École Polytechnique Fédérale de Lausanne (EPFL)

Master's Thesis Visiting Student

Apr 2024 - Sept 2024

Lausanne, Switzerland

- Thesis: Dynamic Bayesian Optimization for Improving the Performance of Cellular Networks.
- Supervisors: Prof. P. Thiran (EPFL), Dr. A. Bardou (EPFL)

École Polytechnique

MSc in Computer Science - Track: Internet of Things

Sept 2022 - Sept 2024

Paris, France

- Double Major: Machine Learning, Computer Networks; GPA: 3.87/4
- Key subjects: Machine, Reinforcement and Deep Learning, Federated Learning, Large scale optimization, Computer and Wireless Networks, Embedded Systems.

Linköping University (LIU)

Exchange Programme - Industrial Engineering

Aug 2021 - Jan 2022

Linköping, Sweden

- GPA: 4.5/5

Alma Mater Studiorum – Università di Bologna (UNIBO)

BSc in Industrial Engineering - Minor: Information & Communication Technology (ICT)

Sept 2019 - Jul 2022

Bologna, Italy

- Final mark: 110/110 cum LAUDE; GPA: 28.94/30
- Thesis: Conception and Design of a Predictive Maintenance System for the Automotive Sector.
- Key subjects: Signal Processing, Operation Research, Electronics, Logistics, Stochastic Process Control.

WORK EXPERIENCE

Cisco Meraki

Software Engineer Intern - Data Science team

Apr 2023 - Sept 2023

Paris, France

- Theorised and developed a novel time series prediction model and a causal inference algorithm. Both algorithms were used to build an anomaly detection product for L2 devices.
- Key Results: Paper publication [1]
- Supervisors: Prof. T. H. Clausen (École Polytechnique) and Dr. Z. Yao (Cisco Meraki)

National Inter-University Consortium for Telecommunications (CNIT)

Scientific Research Partner

Nov 2022 - Apr 2023

Bologna, Italy

- Developed a low computational cost algorithm for RIS-aided UAV tracking using a Dual Function Base Station (DFBS) as a signal source, in a Non-Line-of-Sight (NLOS) scenario.
- Key Results: Contribution to publication [2]
- Supervisor: Prof. F. Guidi (UNIBO)

Cluster Reply

Junior IT Consultant Intern

Mar 2022 - May 2022

Turin, Italy

- Designed a predictive maintenance product for vehicles failure prediction, combining statistical process control and regression-based techniques with a cloud infrastructure for edge deployment.

- Jointly led sales and product development.
- Key Results: Algorithm got acquired by third-part company (Movyon) for Tunnel Fault Monitoring.
- Supervisors: Prof. F. Guidi (UNIBO) and S. Agostini, Associate Partner (Cluster Reply)

Junior Enterprise Bologna (JEBO)

Jul 2021 - Jul 2022

Vice President

Bologna, Italy

- Managed 90 human resources, 51K € on revenue (+60%).
- Partnership manager - 10 new collaborations.
- Creator of “Coffee with Entrepreneurs” career orientation program (moderator of 3 events) - 30 entrepreneurs involved, 1k podcast views, avg. 30 attendees per event.

PUBLICATIONS

- [1] E. Mengoli, Z. Yao, W. Wei, and T. Clausen, “Develop end-to-end anomaly detection system,” in *2023 IEEE International Conference on Data Mining Workshops (ICDMW)*, IEEE, 2023, pp. 1370–1379.
- [2] F. Guidi, A. Guerra, E. Mengoli, and A. Zanella, “A statistical characterization of communication performance in ris-aided networks,” in *ICASSP 2024-2024 IEEE International Conference on Acoustics, Speech and Signal Processing (ICASSP)*, IEEE, 2024, pp. 12 921–12 925.

SELECTED PROJECTS

signSGD is Byzantine Fault Tolerant

2024

ongoing submission to NeurIPS 2024

- Building on Bernstein et al. (2018), this ongoing research aims to demonstrate the Byzantine resilience of signSGD and introduces an algorithmic variant to accelerate its convergence; supervised by Prof. E. M. El Mhamdi (École Polytechnique).

EXTRACURRICULAR ACTIVITY

Federazione Italiana Pallacanestro (FIP)

Dec 2014 - Sept 2022

Basketball referee

Italy

- “Trofeo delle regioni” (2019) - selected as one of the two best referees in Tuscany.
- “14th World Maxibasketball Fimba Championship” (2017).

SKILLS SUMMARY

- **Languages**: Italian: Native, English: Proficient, Spanish: Intermediate, French: Intermediate.
- **Tools**: Python, SQL, Java, C, LaTeX, AWS, Azure, GitLab, MySQL, Arduino, Clickup, Trello, Jira, Office suite, Google suite, Google Data Studio.
